

Welcome to Perfect! Computers

Santa Barbara's Trustworthy, One-Stop Technology Resource

We solve your technology problems, tailoring each solution to your specific needs.

Perfect! Computers is solving small business problem in a big way. We use only the best hardware and software from name brand companies and tailor it to your unique needs. A Value Added Reseller(VAR) can make the difference between a makeshift and troublesome computer set-up and a well-integrated smoothly functioning system.

If you need to get set-up on the Internet, you've come to the right place. Our onsite consultation, upgrades, service, networking and training provide you with all the resources you need for costeffective and efficient solutions to your home office.

Perfect! Computers offers network design and installation for small and large office, retail and home applications.

TIME IS MONEY CHEAP IS EXPENSIVE

Perfect! Computers uses their expertise in ever-changing technology to provide you with a quality foundation for your computer and home entertainment systems to operate. By considering the larger picture of your current and future needs we can offer a creative, cost-effective and efficient solution.

We are technicians and understand how our products work and how they integrate with one another to reach your goals.

We take the time to research our products so you purchase only what you need. We work with your budget to get you the system that will meet your needs.

THE SHAPE OF TVS TO COME!

Perfect! Computers also offers a full line of quality name brand large format Plasma and LCD screens. These screens give customers more options to put televisions and screens in places they never thought before.

Perfect! Computers gives you a full range of installation services not available anywhere else! Flat screen's beautiful color and rich tones make it an excellent addition to any home entertainment system. Plasma delivers amazing presentation quality with 170 degree visibility and an exceptionally sharp picture, making it easy to see from virtually any angle or distance.

We start with an on-site consultation where we help you determine the best screen for your needs. We then design an installation that includes the full service, from AV / Sound installation, wiring, line conditioning, CAT5 wiring and getting your cable or satellite installed and hooked up.

With Perfect! Computers you get it all from design to hardware to wiring to installation. For questions regarding products, services and pricing, please call (805) 967-2557 or Email Us and an Agent will work with you to determine your best option based on your situation, time requirements, location and budget.
